

BS158 5 in 1 Super Detector

This 5 in 1 super detector help you to detect metal, AC voltage, microwave leakage; build in continuity check function to help to check light bulb and include flash light (torch) function to help you working in dark place

Features:

- metal detection
- non-contact ACV detection
- microwave leakage detection
- continuity check
- adjustable (0° to 270°) sensor arm
- LED flash light

General Specification:

Standard: EN61010-1 CAT II

Power: 1 x 9V NEDA 1604, IEC 6f22, 6LR61 or equivalent

Weight: 90g (including batteries)

Size: 170*30*30mm
